

## *Weekly Quality Byte*

### **Where do you find an MSDS (Material Safety Data Sheet)?**

**Answer:** They are on the I-Net (Intra-Net). On the computer access the Intra-net. Go to the right side of the page to My Library/e-documents. Scroll down to “Safety” and click on Safety. MSDS Database will appear and click on it. Once the new screen page appears enter the information on the chemical you are looking for and click on search. The product information will appear at the bottom of the search.
